👤 Objective

I'm a WordPress developer focused on building responsive, SEO-friendly, and performance-optimized websites. I convert Figma designs into fully responsive and visually accurate WordPress websites, ensuring every detail matches the original design. I also focus on optimizing websites using custom themes, plugins, and best practices in WordPress development.

📁 Professional Experience

Brandshark
Wordpress Developer

04/2024 – present
Bangalore

- Customized existing WordPress themes and plugins to enhance website performance and improve user experience
- Integrated third-party APIs and plugins for enhanced functionality and seamless user experience
